

# Tradition & History

Since 1798 the Wanders Family has produced world-class chocolates, pastries, and savories. We pride ourselves in the rich gastronomic traditions started by Wilhelm Wanders at Hotel-Restaurant Wanders in Elten, Germany over 200 years ago. The Hotel-Restaurant is still in operation today under our uncle, Theodor Wanders. Conditorei Wanders, the official café of the city of Kleve, Germany, began in 1981 under our parents Wilhelm and Margarethe Wanders. In 2005 we continued the culinary traditions of our family by founding Chocolaterie Wanders. We are pleased to be able to share our history and passion for chocolate with you, and invite you to savor a piece of the old world.

## Explore The Possibilities

At Chocolaterie Wanders we believe chocolate is an edible

luxury to be savored and remembered. We strive to provide our clients with the most personalized artisan chocolate experience possible. We're proud to offer both retail and wholesale clients bulk confections, two and four piece favor boxes, quarter, half, and full pound gift box assortments, seasonal gift baskets, and our premier line of handmade keepsake mahogany wooden box assortments all available with customizations to make your chocolate experience as unique as you are.

## Handcraft & Quality

We strive to redefine the quality of artisan chocolates. Every stage of production is done by hand, including the mixing, pouring, cutting, piping, and enrobing of ganaches, as well as the final decoration and adornment of each confection. Our creations are flavored using only wholesome, natural ingredients such as fresh fruit purees and carefully selected herbs and spices. We do not use any artificial flavorings or concentrates. We refrain from using emulsifiers or preservatives, making our chocolates best enjoyed within four weeks of purchase. We believe the ganache is the centerpiece of our confections. Because of this we do not use molds to form our chocolates. By combining traditional European chocolate production methods with fresh, local ingredients, we are able to provide our clients with exclusive edible rewards.
